

Casual Friends New Year Message

Hey [Friend's Name]!

Can you believe another year is already behind us? Time really does fly when you're having fun (and dealing with all of life's craziness)!

I've been thinking about all the good times we've had this year - from our random adventures to those late-night conversations that somehow always end up being the most meaningful. You've been such an amazing friend, and I'm so grateful for all the laughs, support, and memories we've shared.

[New Year] is going to be our year! I can feel it. I'm excited to see what adventures await us and what new inside jokes we'll create along the way.

Here's to another year of friendship, fun, and probably way too much coffee/wine (depending on the situation). May your new year be filled with everything that makes you happy!

Cheers to us and to [New Year]!

Love and best wishes,

[Your Name]
